

Finally we have a law to make it easier for people to relax in their home without the intrusion of annoying calls from someone begging for money or trying to stuff a product into your home. Of course the law is tuff and so are our FMLA Laws in NJ stronger than the feds.

If you would like more reasons not to repeal this law send my your home phone # and I can have all the residents of NJ call you around dinner time or at 8:55 PM.
